At the intersection of private streets and county roads, street marker signs to direct traffic to private residential subdivisions shall be placed on private property by the applicant or contractor. The cost of materials and any required replacement costs shall be paid by the subdivider, homeowner's association, or individual requesting the sign(s). The Johnson County Planning and Zoning Department reviews the applications for private street sign names to insure that the spelling on the approved subdivision plat road name and the ordered sign are the same. Signs shall be installed in the north and/or west quadrant of the intersection, by prior agreement with 911 emergency services. Street marker signs, brackets, and posts, may be purchased privately or through the Secondary Road Department. Department personnel will fabricate these private street marker sign(s) as time and schedule permits. If you are not planning on Secondary Roads constructing the street marker, note that the sign will need to conform to the Federal MUTCD (2009 or most current manual) according to Section 1A.07.

Material costs for estimating purposes, as of March 2024, and subject to change:

- Brackets are \$26.40 - \$41.80 each depending on type.
