## Inspection Published Comment:

Routine inspection conducted. A physical recheck will be conducted on 2/13/2026 to verify front top prep cooler has been fixed. A second physical recheck will be conducted on or around 2/10/2026 to allow the establishment the full 10 days from the routine inspection to correct the remaining violations.

Per Johnson County Public Health policy on repeat Risk Factor Violations out of compliance on three or more routine inspections a Warning Letter has been issued for violation #22. See official letter for compliance details.

## Discussions With Management:

#20: Discussed requirements of cooling foods to reach 70F within 2 hours of starting the cooling process. Inspector provided guidance documents for cooling processes and cooling temperature logs.

#22: Discussed with person in charge that foods within top prep cooler need to be tempered every hour to ensure foods requiring cold holding are staying at 41 degrees. Person in charge moved foods into smaller containers to ensure the ice placed in top prep cooler is able to fully encase the container in order to keep foods at the correct cold holding temperature.

Follow-up will be completed on or after 2/13/2026 by Physical Recheck.
