Inspection Published Comment:
LICENSE IS APPROVED.

Scope of Business: Establishment intends to offer items such as panini sandwiches, deli meats, cheese, and other approved hot/cold items using fully cooked meat and poultry products. Food preparation is limited to reheating for immediate service using a commercial panini press/sandwich grill and microwave. No cooking is approved. No hot holding is approved except for coffee.

Limitations: The commercial dish machine is the primary warewashing method; the existing sink setup is not approved as a three-compartment sink. Fruits and vegetables requiring washing/preparation are not approved due to the lack of a food preparation sink. Cooling foods for later service and reheating previously cooled foods are not approved. Any changes to the menu, food preparation processes, or equipment require prior approval by the Regulatory Authority.

The establishment has a Certified Food Protection Manager. CFPM documentation was provided to the inspector during the pre-opening inspection.

Firm has been made aware of the applicable Food Code requirements and understands the responsibility to comply with those requirements.

The following guidance documents have been issued:

Malika Williams
Person In Charge

Ahmed Mohammed
Inspector
