Inspection Published Comment:**MOBILE FOOD UNIT LICENSE IS NOT APPROVED.**

Reason: The proposed overnight unattended cooking process is not approved. The operator proposed cooking raw pork in a crockpot for approximately 8 hours while the mobile food unit is unattended and powered by a generator.

Corrective Action: The operator will need to revise the pork preparation process. Options discussed include cooking/preparing the pork at an approved commissary, modifying the process to eliminate unattended overnight cooking, or using commercially pre-cooked pork for reheating and hot holding.

It is the owner's responsibility to contact the inspector for an additional pre-opening inspection to approve the license.
