

**Johnson County Juvenile Justice Youth Development (JJYD) Program**  
**FY 22 Year-End Program Outcomes**  
**Report Prepared by: Laurie Nash, Johnson County Social Services**

Johnson County Juvenile Justice Youth Development funding supports programs that promote positive youth engagement, offers support and provides personal enrichment opportunities for young people that may lead to an improved quality of life.

In FY22 the Johnson County Board of Supervisors committed \$311,740 in funding for positive youth development programs that prevent juvenile crime and delinquency and improve the well-being of children. Ten contracts were awarded to five agencies to support these efforts. In addition, Johnson County collaborated with Neighborhood Centers of Johnson County and GreenState Credit Union to implement the Youth Empowered to Serve summer employment program.

Johnson County's investment in positive youth development has had a positive impact in the community, improving outcomes for youth and reducing the costs associated with juvenile delinquency. Between FY 2015 and FY 2020, juvenile delinquency complaints dropped for all males by 39%, including a 42% decrease for African-American males and a 35% decrease for White males. Conversely, complaints for Latino males increased 6%. During that same time, complaints for all females increased by 28%, including a 51% increase for White females but a decrease of 6% for Black females. While figures are available for FY 2021, they are considered outliers due to the pandemic.

The top 6 allegations for youth in FY2020 were Theft, Assault, Other Public Order, Drug Possession, Alcohol, and Vandalism. It is important to note that most allegations decreased from FY19 to FY20, likely due to the pandemic. Analyzing the top 5 allegations for youth between 2015 and 2020, Theft significantly decreased, by 25% for White youth and by 57% for African-American youth. Those trends were also reflected by gender, with a 37% decrease in Theft 5<sup>th</sup> Degree for females and a 46% decrease for males. During that time period, Diversions increased for all populations except Hispanic youth.

The average daily population for Johnson County youth at Linn County Detention increased 44.56% between 2014 -2018, going from an average daily population of 3.86 youth to 5.58 youth. This was in large part to an increase in March-June 2018. Numbers went down in FY19 and then there were considerable decreases FY20-21 in large part due to the pandemic. Johnson County average daily population in Linn County Detention was at 3.67 youth per day, ranging from a low of 1.9 in second quarter to a high of 6.02 in 4<sup>th</sup> quarter. We anticipate averages will decrease as we implement expanded eligibility and programming for juvenile pre-charge diversion.

**Juvenile Justice Youth Development Projects implemented one or more of the following strategies in order to obtain the desired outcomes.**

<b>Strategies:</b>	<b>Desired Impacts:</b>
<ul style="list-style-type: none"><li>• Pro-social programs during out- of-school time</li><li>• Support and strengthen family functioning</li><li>• Build safe and supportive communities for youth and families</li><li>• Build social and emotional competence</li><li>• Establish sustained and caring relationships with caring adults</li></ul>	<ul style="list-style-type: none"><li>• Decrease in juvenile complaints to law enforcement.</li><li>• Increase in positive conflict resolution and communication skills</li><li>• Increase in peer refusal skills</li><li>• Increase in positive peer relationships</li><li>• Improved parent child relationships</li><li>• Increase in supportive neighborhoods and/or youth and families feeling more connected to their community and/or schools</li><li>• Increased participation in youth employment and/or other positive out of school time activities</li><li>• Increase in youth feeling more connected to caring adults</li></ul>
